

Expertise

- Arbitration & Adjudication
- Quantity Surveying
- Liability and Quantum.
- Project Management
- Project Monitoring
- Contract Administration
- Construction Contracts & Claims

Experience

Quantum Expert, Quantity Surveyor, Claims Consultant & a Barrister with over 24 years' experience in building & construction industry. I was the Managing Partner of a large Legal 500 Asia Pacific firm in Bangladesh. I have represented high government offices of various countries and state owned enterprises during that period.

Having been called to the Bar in 1997 I practised as a Counsel mostly in International Arbitrations resolving construction disputes. I am also experienced in Procurement & Project Management in large and complex projects.

Since 2010 I have been on quantity surveying roles in construction project contracts in the UK. I have done quantity take off, estimating and pricing, tender packaging, obtaining price quotations, negotiating and concluding contracts. I have been involved in contract administration, interim or final valuations, preparing claims for both time and money, negotiation & settlement of claims & dispute resolution.

I have prepared expert quantum reports for lead experts both in Courts and ADR proceedings. The reports have been successful. I have attended expert witness day course at CIARB.

In 2017-9 I have prepared quantum and or contract report for the Court, and for ADR tribunals.

Legal 500 editors recognised me as the No.1 Construction and Property Lawyer and leading professional for five consecutive years for Bangladesh.

MOHAMMED HAQUE

Party Representative.

Since 1994 I have been involved in construction litigation, arbitration, adjudication and claims. My areas of expertise include preparing and defending claims under construction contracts before Adjudication, Litigation and Mediation tribunals, either representing the parties or acting as an independent expert. I also specialise in expert witness work on quantum issues.

I have frequently represented parties before ADR tribunals both in adjudications and arbitrations. I have worked at a PQS firm in London starting from entry level and working my way through up to partner in charge of its Claims and Dispute Resolution unit.

Others.

I frequently deliver talks, seminars, workshops, and in-house training for construction professionals, building & civil engineering contractors and professional institutions.

Sectors.

Building, Civils (Pipeline, tunnelling, earthwork, Railway), Mining, Oil and Gas (up and downstream), EPC in Power Generation, GSM Telecom Networks.

Model Forms

I have a long practice experience of most main & sub-contract model forms used in the UK, NEC & JCT in particular. I have regularly drafted bespoke forms of agreements and contracts for clients.
